## “Youth Train in Trades” Program

**THREE (3)** Parkside students will be selected from a group of Parkside candidates who have expressed an interest in participating in the “Youth Train in Trades” program. The successful candidates will have demonstrated in the first semester good full time attendance, excellent work habits and completed four courses (mathematics mandatory).

This program will begin in February 2022. Students will spend one week at Coast Mountain College learning about **Mechanics, Welding, Carpentry, Plumbing, and Electrics**. The following week students will attend their regular classes at Parkside.

Bus transportation will be provided to and from the college. Students will depart from Parkside in the morning and return to Parkside in the afternoon in time to transfer to their homebound school bus.

For the first day in the shops, students should plan to have **CSA-approved steel-toed boots** (not steel-toed runners), a pen, and paper in a binder. Other supplies are being provided by the College: clear safety glasses, a high-visibility safety vest, and coveralls.

Some time with the College instructor is spent in the classroom, including work on Standard First Aid, Construction Safety Training, and WHMIS. Organization, independence, diligence, and responsibility will be important.

If you have any question regarding some aspect of the Trades 10 program, please phone your **contacts** Jane Arbuckle (principal) and Kirsty Evans (teacher) at 250-635-5778.
