

## **Attendance Policy for Parkside Students**

Parkside Secondary School offers a self-paced supportive learning environment for students in grades 8-12. A student's ongoing enrolment in this specialized program is determined by their attendance and participation shown at school. The staff at Parkside expect students to *attend school every day*, unless they are sick, so they can finish courses each term.

The attendance and work habits of students will be examined throughout the school year. Any student who does not demonstrate satisfactory attendance or work habits will be given a "Letter of Concern" from the principal outlining that improvement needs to happen. If there is no improvement, then the student will be withdrawn from Parkside due to non-participation and alternative options for continued education will be offered.
